MEMORANDUM FOR: Acting Director of Central Intelligence

THROUGH: Deputy Director for Intelligence *G*

STAT

FROM:
Chief, Arms Control Intelligence Staff

SUBJECT: Coordination of Arms Control-Related Research

REFERENCE: Memo fm D/ACDA to DCI, et al, same subj, dtd 23 May 84

1. Action Requested: That you sign the memorandum to Director, US Arms Control and Disarmament Agency.

STAT

2. Background: You received correspondence from Director, ACDA (see attachment left) a few days ago dealing with the need for a mechanism through which ACDA's responsibilities under the US Code, to coordinate certain arms control-related research, can occur. This correspondence is straight-forward and is self-explanatory.

STAT

3. Over the last several months, this staff has been helping ACDA and the rest of the Executive Branch understand the kinds of "research" which do and do not fit into such coordination by ACDA (as intended by the Congress). It is clear that ACDA has been taking a reasonable attitude on the definition of this "research." DOD has strenuously resisted encroachments on their prerogatives, as have we. It is my understanding that the normal kinds of intelligence production are not included in this effort at coordination. An example of work which would be included is the contract work this Agency performs for ACDA, with ACDA funds.

STAT

4. The basic thrust of this recommendation has been discussed with and agreed between myself and C/PMS/DDI, C/PES/DDI, and ExSec/IPC.

5. Recommendation: Sign the correspondence to D/ACDA.

1. Thank you for your memorandum (see reference). [redacted]

2. The Intelligence Community supports your effort to implement Section 31 of the Arms Control and Disarmament Act. We have been working with ACDA officers on this issue during the last several months. We are prepared to help ACDA put a mechanism into existence to meet the requirements of Section 31. The point of contact for the Intelligence Community is [redacted] of CIA's Arms Control Intelligence Staff. She can be reached on [redacted] [redacted] has worked with ACDA officers successfully in the past on a variety of issues and we believe that she will be able to help you in this arena as well. In keeping with your request [redacted] will be in contact with the appropriate elements of US intelligence whenever such steps are appropriate.

OFFICE OF
THE DIRECTOR

MEMORANDUM FOR: Secretary of State
Secretary of Defense
Secretary of Energy
Director of Central Intelligence ✓
Assistant to the President for National
Security Affairs
Chairman of the Joint Chiefs of Staff
Administrator of the National Aeronautics
and Space Administration

SUBJECT: COORDINATION OF ARMS CONTROL-RELATED RESEARCH

Section 31 of the Arms Control and Disarmament Act provides that the ACDA Director, under the direction of the President, will coordinate research, development and other studies conducted in the field of arms control and disarmament by government agencies. Sec. 4 of Executive Order No. 11044, dated August 12, 1962, defines ACDA's role in this regard: "The [ACDA] Director shall maintain a continuing inventory of Federal activities related to the planned [research] program and advise the affected agencies as to their respective participation in the planned program in order to produce harmonious action and prevent duplication of effort. The [ACDA] Director shall periodically submit to the Director of the Bureau of the Budget a consolidated schedule of such activities with assessments of their respective programs by the responsible agencies, together with his evaluations regarding these activities."

We need to put a mechanism into effect to meet these requirements. The possibility of satisfying the requirements by periodic exchanges of information and meetings at a working level, in which agencies would present arms control-related research currently under contract and plans for future such work, has been discussed at the staff level. The objective of these meetings would be to ensure that information on arms-control related research efforts is available to all concerned agencies. Management of research activities is and, of course, will remain the responsibility of individual agencies.

I would value reactions to this approach and would like our agencies to move ahead to work out satisfactory arrangements. For this purpose, the name of your representative in this effort should be provided to my Executive Secretary, William Staples (632-4766).

MEMORANDUM

TO: The Director

FROM: SP - Louis V. Nosenko, Acting

SUBJECT: COORDINATION OF ARMS CONTROL-RELATED EXTERNAL
RESEARCH

The attached memorandum to Principals proposes establishing a process for the coordination of arms control related external research among agencies of the Executive Branch as mandated by the Arms Control and Disarmament Act. It is in response to the GAO's critique of ACDA's coordination of federal arms control research and has been coordinated at the staff level of the addressee agencies. There is some urgency to this matter because GAO has asked us for a progress report.

Recommendation:

That you sign the attached memorandum to Principals.
